

The Pain Society of Alberta

17th Annual Conference

Exhibitor Brochure
October 13-14, 2023

Coming Together. Learn. Share. Inspire.

Updated October 8, 2023

Friday October 13th

1045h **AbbVie and Migraine Canada**

This short film breaks through stereotypes and stigma to reveal the truth about migraine and expose the real toll it takes on those affected. Migraine... You think you know, but do you really?

Migraine is so much more than a headache. It's a debilitating neurological condition affecting millions of Canadians, most of them women.

Together we can make the future migraine friendly.

1200h **Lunch**

1215h **The Process of a Personal Injury Lawsuit: How the lawyer and medical practitioner can work together for the benefit of the client/patient.**

Steve Grover, Dr. Marc Klasa and Jim Powers

The presentation will be about the legal process of a personal injury lawsuit and the misconceptions that lawyers have of medical practitioners and what misconceptions that health practitioners have of lawyers and the lawsuit process, and how everyone can work together to help the client/patient.

At the conclusion of this activity, the participant will be able to:

- Explore the process of a personal injury lawsuit and how a case is developed.
- Identify how health providers are an important part of a lawsuit so the patient's claim can be presented to the courts and resolved.
- Formulate how lawyers and health providers can work together for the benefit of their client/patient.
- Discuss how chronic pain and other injuries are viewed by the court process.

Steve Grover BA, JD,
Founding & Managing Partner
Grover Law Firm

Steve has successfully resolved hundreds of cases both outside and inside the Alberta Court of Justice process. He has appeared in Alberta Court of Justice and the Supreme Court of British Columbia. He has also participated in numerous Judicial and Private mediations.

He has presented papers on personal injury law, and recently lectured on medical malpractice issues at the University of Calgary Medical School in the Resident program. His legal practice focuses on representing injured victims suffering from chronic pain and catastrophic injuries arising from car accidents, motorcycle accidents, and trucking accidents. He is licensed to practice law in Alberta, Nova Scotia, Yukon and the North West Territories.

1445h Canada Diagnostic Centres

This year, Canada Diagnostic Centres (CDC) celebrates 30 years of providing exceptional care to patients in Alberta, and now present in Saskatchewan, British Columbia, and Ontario. From image-guided pain management, nuclear medicine, ultrasound and mammography to private MRI and CT services, CDC offers leading-edge technology to meet the needs of patients and provide unparalleled trust in their physicians.

Since inception our practice has always strived to deliver a standard of care to patients that we would expect for our own loved ones, and create a work environment our physicians and staff are truly proud of. While today we serve many more communities and people than we did 30 years ago, we bring that same philosophy every where we go, with everyone we meet.

Saturday October 14th

1015h A Personal Injury Lawyer Living with Chronic Pain
 Steve Grover

During this presentation, Steve will discuss injuries he has suffered in his lifetime and how he has found ways to deal with chronic pain to be able to participate in his work, activities of daily living and enjoy his recreational activities and travel.

At the conclusion of this activity, the participant will be able to:

- Realize chronic pain has no barriers and affects everyone regardless of who the person is.
- Outline steps the presenter has taken and avoided to function daily; and
- Give hope to everyone suffering from chronic pain that a person can have an enjoyable life.

1250h Lunch

1305h Teva Canada

Around the world, we all share many of the same life experiences. But we don't always have the same access to the medicines we need to help us live better, healthier lives. Every day, #TevaPharmaceuticals helps around 200 million people around the world gain access to quality, affordable medicines. Our mission is to be a global leader in generics and biopharmaceuticals – and in doing so, ensuring a healthier tomorrow for our planet and for patients all around the world.
